

PROFILE

Computer Science and Engineering undergraduate at IIIT Kottayam with hands-on experience in Machine Learning, Python and Generative AI. Strong interest in Software Development , AI/ML and Data Science with practical exposure to building data-driven systems and solving real-world problems. Seeking internship opportunities to contribute to scalable and impactful solutions.

EDUCATION

Indian Institute of Information Technology, Kottayam
B.Tech in Computer Science and Engineering 2024 – 2028
CPI: 7.50 / 10

PROJECTS

Bank Marketing Term Deposit Prediction

- Built machine learning models to predict customer subscription to term deposits using real-world banking data.
- Tools & technologies used: Python, Scikit-learn, Pandas, NumPy.
- Implemented Logistic Regression and Random Forest, performed preprocessing, feature selection and model evaluation.

Parking Plot Availability Checker

- Developed a computer vision system to detect available parking slots from CCTV footage.
- Tools & technologies used: Python, OpenCV.
- Designed real-time parking availability visualization using video frame processing and object detection.

AI Chatbox using OpenAI

- Built a PDF-based chatbot using Streamlit that allows users to upload notes and ask natural-language questions.
- Tools & technologies used: Python, Streamlit, LangChain, OpenAI API, FAISS, PyPDF2.
- Implemented text extraction, chunking and semantic search using OpenAI embeddings and FAISS vector store.
- Generated context-aware answers using LangChain with a custom prompt and ChatOpenAI model.
- Designed an end-to-end pipeline from document ingestion to answer generation for efficient knowledge retrieval.
- Used GitHub for version control and collaborative development (branching and pull requests).

SKILLS

- Programming:**
Java, Python, C, SQL
- Machine Learning:**
Scikit-learn, Regression, Classification, Model Evaluation
- Generative AI:**
LLMs, Prompt Engineering, LangChain, Embeddings, RAG, OpenAI API
- Data Analysis:**
Pandas, NumPy, Matplotlib, Seaborn
- Tools:**
Git, GitHub, Jupyter, VS Code
- CS Fundamentals:**
DSA, OOP, DBMS
- Development:**
REST APIs, backend integration, basic system design

CERTIFICATIONS

- Data Science and Machine Learning – Finalitics
- Fundamentals of Java – Coursera

LEADERSHIP

Member, Coding Club – IIIT Kottayam

ACTIVITIES

Volunteer in technical workshops and student events
